

GF28 & GF30

Step Top Wood Stove

GF28 shown with black door and pedestal base.

Designed to heat small or medium sized living areas, the simple modern GF28 lines suit a wide range of decors. This radiant heater boasts several features, including: a large glass viewing area, the ability to heat approximately 150-180m², and front-to-back or side-to-side log placement.

It's contemporary design and large viewing area sets GF30 lines apart from traditional freestanding wood stove. This convection heater, with optional 2-speed fan, is designed for medium sized living areas and can easily heat approximately 170-200m².

GF30 shown with black door and pedestal base.
